

Mitten Gift Holders

Pinch the cuff of these mittens open and tuck folded-up bills inside to give as a gift. Other ideas might be to insert a paper gift certificate or a note of appreciation. This may prove to be a creative way to hand out membership applications by rolling one up and tucking it inside. The opening of the finished mitten will be about 1.5"W x 3"H. Cut out two 7-count plastic canvas mittens. Choose any design and follow the pattern instructions to make the mitten front, stopping before you overcast the edge. The second mitten will be used for the back and will not be stitched, in order to make it easier to tuck something inside. The back can be cut out of a matching colored plastic canvas if desired, but clear will work just fine. Follow the numbered photo illustrations to complete this project.

DSCN3360

DSCN3358

DSCN3359

DSCN3366

DSCN3367

DSCN3368

1. Finish stitching your chosen front mitten pattern without overcasting the edge.

2. Cut about a 50" length of yarn for overcasting edge (refer to pattern for color), run needle underneath stitches on back to secure end. (It's easier to do the edge with one long cut of yarn)

3. Pulling needle and yarn thru, leave a little tail behind to hold while you begin overcasting the edge. Holding tension on the tail end will let you snug up your yarn without pulling it out.

DSCN3369

4. Begin overcasting edge 1 square below left corner.

DSCN3370

5. Continue overcasting top edge to the right corner, inserting needle once in the last hole.

DSCN3372

6. Now align the back canvas up against the back side of mitten front.

DSCN3373

7. Make 2 overcast stitches in the top corner of both pieces.

DSCN3374

8. Continue overcasting both edges together all the way around to where you began.

DSCN3375

9. To finish it off make 2 overcast stitches in the top left corner of both pieces.

DSCN3376

10. Run needle back thru overcast edge to secure yarn and conceal the end.

DSCN3377

11. Run needle under overcast edge of thumb to further secure yarn and keep it from loosening at corner where mitten opens.

DSCN3379

12. Trim end of yarn close to mitten, being careful not to cut your stitching.

DSCN3380

13. Pinch mitten at sides to open and tuck whatever you decide inside your mitten gift holder.

DSCN3381

14. Cut a 12" gold string or yarn and insert in top left corner hole. Attach a paper tag identifying your ALA Post and Unit #. Tie off at a 4" length.

DSCN3382

15. Appearance of the back side of your finished Mitten Gift Holder.

Tie String Instructions (Style 2)

4

Pull yarn thru and line up the two ends of yarn evenly. Pull the top loop snug against the mitten by holding both of the loose string ends on the backside and pulling away from the mitten.

DSCN2751C

5

When the loop has been pulled up tight against the mitten, the tie string will not be noticeable from the front. It will blend in with the color of the cuff yarn.

DSCN2752C

DSCN2754C

6

Bring the two loose ends together and make a knot, tightening it up at 4" from the ornament. Pull the knot tight and then snip the excess yarn off with a scissor.

I use a 4" length because it fits nicely over door handles and isn't too long to hang on a tree branch. Whatever length you choose, will work for you. You may have to adjust the initial length of string you cut.
